

# MANUAL Page 1 of 3

Weldas CE markings on this product designates it as tested and certified according to directive 89/686/EEC Level 2.

## WELDAS PRODUCT:

44-2530\*, 44-2800\*

EN ISO 11611 (2007), Class 2/A1

Clothing type: **Golden Brown™**

Trade mark: **Golden Brown™**

Size: see imprint on the product

### Sizing according to: EN ISO 13688 (in CM).

|     | A | B | C | D  | E    | F    | G | H   | I  | J    | K |
|-----|---|---|---|----|------|------|---|-----|----|------|---|
| M   |   |   |   | 76 | 79   | 52.5 |   | 100 | 52 | 33   |   |
| L   |   |   |   | 81 | 84   | 54.5 |   | 112 | 54 | 35   |   |
| XL  |   |   |   | 86 | 85.5 | 55   |   | 124 | 55 | 35.5 |   |
| 2XL |   |   |   | 91 | 86   | 56.5 |   | 136 | 56 | 37   |   |
| 3XL |   |   |   | 96 | 87   | 57.5 |   | 148 | 57 | 37.5 |   |

#### Materials used:

Side split cowhide in combination with 315 gr/m<sup>2</sup> flame retardant fabric is used with 3 ply KEVLAR® for manufacturing this product as well as current isolated push buttons and hook and loop fastening materials for the closures and reinforcements. DuPont™ and KEVLAR® are trademarks or registered trademarks of E.I. duPont de Nemours and Company

#### Health information:

The pH, Chromium (VI) and PCP levels of all materials have been tested and meet CE health standards. Coloring: coloring is done by using natural materials

#### Washing, drying and ironing:

No washing, drying and ironing is advised

#### Storage:

Store dry and at temperatures over 5° Celcius.  
Do not stack higher than 5 cartons on 1 pallet.

#### Warrantee:

This product is warranted against manufacturing defects.

#### Intended use:

##### General:

This product is intended to be used for all arc welding processes like MMA, MIG/MAG, TIG, micro plasma, spot and gas welding as well as plasma and oxygen cutting, gouging, brazing and thermal arc spraying. Because applications vary, it is the user's responsibility to identify the right product for each application.

##### Identified hazards:

With the welding processes of intended use the following hazards are identified: flames, spatter of molten material, radiant heat as well as short term electrical shock.

##### High voltage:

This product protects against short term electrical shock and not against long term high voltages! Welding and cutting machines can cause these so follow the safety instructions of the machines used as well! When there is an increased risk of shock or electrical live parts additional electrical isolation will be required as is indicated under 6.10 of the EN11611 for protection against live electrical conductors up to 100 V = (DC).

##### Body protection in all positions:

This product protects in certain positions of working and welding. It could be possible that extra protection products are required. It is the responsibility of the user to identify that.

##### Protection of aprons:

In case an apron is used the apron should, at least, protect the user from seam side to seam side

##### Additional garments:

Additional garments shall meet at least Class 1 of the EN11611.

#### Improper use:

##### Level of protection:

The level of protection will be reduced if the welders protective clothing is contaminated with flammable materials.

##### Level of oxygen:

Increase of oxygen in the air will reduce considerably the protection of the welders protective clothing against flame. Care should be taken when welding in confined places. Air enriched with oxygen will be dangerous!

##### Electrical isolation:

The electrical isolation provided by the clothing will be reduced when the clothing is wet, dirty or soaked in sweat.

##### Use of 2-piece clothing:

When 2-piece clothing is used both items shall be worn together to provide the specified level of protection

##### Additional body protection during welding:

Additional body protection used with this product during welding must meet the appropriate EN standard for welding hazards.

##### Limitations for use:

This leather work clothing to be used for general labour activities as well as welding. User has to see to it that all closures are closed specially for use with welding applications and the choice of the right size.

#### Attention:

Weldas gloves and clothing have been tested and certified at TÜV Rheinland LGA Products GmbH, Germany (EU no. 0197).
